

LUMEN iL33™

Intelligent LP System with Colored LED Lights and Speakers

The iL33 gives insight and control and has the highest system uptime for effective long-term loss prevention. Its advanced LED light and sound options notify the store staff about RF EAS alarms, metal detection and alarm detection, both incoming and outgoing.

Key Benefits

- Intelligent communication through colored lights and different sounds
- Real-time insight and control with in-store and organization-wide dashboards
- Device Management allows remote monitoring, remote log-in and online firmware update
- Open API for easy integration with other LP systems (like video surveillance)
- Patented OID (Orientation Independent Detection) technology which significantly improves detection rate of tags
- Nedap-CONTROLTEK partnership

Specifications

- Dimensions: 60.41 H x 12.94" W x 3.85" D
- Weight: 33.07lbs
- Connectivity: Ethernet, USB (service port only)
